

Electrogenesis

Vinegar Hill Cemetery Galena, SD, USA
Colloidal solutions from earth ores, go way back. The Picts are a lost civilization rumoured to be migrations from the North United Kingdom, inland through Eyre, the Iroquois. Could Gallatians, be Gauls, and could the galena silver they prized be thier death? Aunt Sally died at the Bell Camp! Ask colonel mustard in the library where Little Big Horn ran after cotton eyed Joseph decided to eat all the Bhurgers alive! Silver ores are used in photography, and whoa, now everyone wants to eat poison so they can see better? Nope. Silver ore is used in Colorants, and that's the safe European way to teach people. Argentum, is also used in medicine, and now it's time to check the silver poisonings in Argentina, right? The Wolverine is a Tasmanian devil, and all the ancient aryan ore legends go even farther back.

Electrogenesis (e-lek-tro-jen'-es-is) [ἤλεκτρον, amber; γένεσις, production]. Results following the application of electricity to the spinal cord or nerve after the withdrawal of the electrodes.

Somolii Guard Dens, Wardens, Sirens and Island Trees

Electromagnetics shape the earth, our sound, our visions and Trees grow to fit those shapes. Do strange trees grow on your island?

The panopticon is a type of institutional building and a system of control designed by the English philosopher and social theorist **Jeremy Bentham** in the 18th century. The concept of the design is to allow all prisoners of an institution to be observed by a single **security guard**, without the inmates being able to tell whether they are being watched.

Noah's Architecture is a cryptic passage in the Old Testament where animals were meticulously severed (supposition) and mad scientists created frankenstyle immortals that lived over 900 years old. Gnosticism

EXPLAIN BETTER : CONSIDER BERYLLIUM'S ROLE AND ELEPHANTS BEFORE COMMITTING TO WHALES

Genesis 7:1-24 and 8:1-22 There are ten instances where the number "seven" is written. The original text is gone, where copies and transliterations exist. As a checkmark strikes up in approval, a seven strikes down, signifying a severance. Noahs ark is missing alot!

bible.com/bible/niv/genesis/

The Book of Noah is thought to be a non-extant Old Testament pseudo-graphical work, attributed to Noah. It is quoted in several places in another pseudigraphical work, 1 Enoch, and is mentioned in another, the Book of Jubilees. There have also been fragments attributed to a Book of Noah in the Dead Sea Scrolls.

When and Why the Boers Armed

(Reprinted from the "Morning Leader" of December, 1899.)

For the benefit of the man in the street those who made this way have invented the myth of a vast dutch conspiracy against the British Empire. They dare not admit that we were the aggressors. So the war is described as "inevitable," the result of a plot to overthrow the empire which has been maturing in President Kruger's brain ever since Mr. Gladstone's so-called "surrender" after Majuba. For evidence of all this we are referred to the Boer armaments. In words that have been found an echo in the speeches of Lord Salisbury and Sir Michael Hicks-Beach, the Daily Mail has assured us that.

The Boers have for nearly eighteen years been accumulating artillery, rifles, melinite, German and Hollander officers, with which to oust England from South Africa. The burden of proof lies in the Yellow Press. So far, if we except Mr. Huh Price Hughes's vague reference to the testimony of unnamed "Christian missionaries and laymen," it has produced not a single item of positive evidence. We are left to the testimony of the Blue-books and the correspondents of the Times. The earliest reference to the subject that we can find is in the article on "Natal and the Transvaal in 1890," published by the Times on 7 November last. The writer states that he has visited Praetoria.
